

I should like to request that you should not lessen the Indiana's Telephone Privacy law protections. The incessant phone calls that came through before the no-call law was enacted was ridiculous. It was a total invasion of privacy to have people calling at all hours of the day and time.

I unfortunately had to be a telemarketer for a while, and I know how many phone calls people were forced to received. Please, do not lessen this law. The information these people try to obtain, the total force of their call is just beyond reason.
